AI & Automation

About the Course Program

This course focuses on how Artificial Intelligence is applied to automate processes across industries. It introduces intelligent systems, workflow automation, and robotic process automation (RPA). Learners will understand how businesses achieve efficiency, accuracy, and scalability using AI-powered automation.

Delivery: Virtual (100% online, instructor-led, project-based) — learn at your own pace

Certification Requirement: Completion of projects and minimum attendance. Earn a minimum passing grade of 70% in each Course Topic assessment

Common Career Paths:

Recommended Study Time: Minimum of an hour personal daily study time during week days and 5 - 6 hours intensive training during weekend

Program Duration: 8–12 weeks

Who Can Attend?

This program is designed for:

- Business professionals and entrepreneurs
- IT professionals and developers
- Students interested in automation and AI careers

Pre-requisites

- Basic computer literacy
- Familiarity with software applications

Detailed Course Overview & Topics

- **Module 1: Introduction to AI & Automation:** Understand the core concepts and applications of AI and automation in the workplace.
- **Module 2: Workflow Automation:** Learn to identify tasks that can be automated and design efficient automated workflows.
- **Module 3: Automation Tools:** Get hands-on experience with popular automation tools like Zapier, Make, and n8n to integrate applications and automate tasks.
- **Module 4: AI in Business:** Explore how AI can be used for tasks like data analysis, customer service, and content generation.
- **Module 5: Practical Project:** Work on a project to automate a business process or use an AI tool to solve a business problem.

On Completion of this Course, You'll Walk Away With:

1

Participants will be able to understand and implement AI-powered automation solutions to improve efficiency in business and technical processes.

2

Ability to identify automation opportunities and implement AI-powered workflows.

3

Certificate from **Learn Citaville Institute**
