

Learn Citaville Institute - Brochure

Advanced Data Analysis using PowerBI & Excel

About the Course Program

This 6–8 week advanced course builds on your foundational knowledge of Excel and PowerBI. Learn advanced data wrangling, interactive dashboards, and best practices for enterprise-grade business intelligence solutions.

Delivery: Virtual (100% online, instructor-led, project-based) — learn at your own pace

Certification Requirement: Completion of projects and minimum attendance. Earn a minimum passing grade of 70% in each Course Topic assessment

Common Career Paths: Business Intelligence Analyst, Data Visualization Specialist, Reporting Analyst.

Recommended Study Time: Minimum of an hour personal daily study time during week days and 5 - 6 hours intensive training during weekend

Program Duration: 6–8 weeks

Who Can Attend?

This program is designed for:

- Graduates of Data Analysis Fundamentals
- Professionals who already use Excel/PowerBI and want advanced expertise
- Analysts aiming for career advancement in BI or consulting

Pre-requisites

- Proficiency with Excel and basic PowerBI knowledge
- Laptop with Excel and PowerBI installed

Detailed Course Overview and Topics

- **Module 1: Advanced Excel:** Learn advanced functions (e.g., VLOOKUP, HLOOKUP, INDEX, MATCH) and automation with macros.
- **Module 2: Advanced Power Query:** Master advanced data cleaning and transformation with Power Query, including merging and appending queries.
- **Module 3: Data Modeling & DAX:** Learn advanced data modeling techniques and use Data Analysis Expressions (DAX) to create powerful measures and calculated columns in PowerBI.
- **Module 4: Advanced Visualization:** Explore advanced PowerBI visualizations and custom visuals to create highly interactive and insightful reports.
- **Module 5: Project-Based Learning:** Work on a large-scale project that requires advanced data manipulation, analysis, and reporting in both PowerBI and Excel.

On Completion of this Course, You'll Walk Away With:

1

Advanced Excel and PowerBI skills

2

Mastery in building enterprise BI dashboards

3

Industry-ready BI project portfolio

4

Certificate from **Learn Citaville Institute**
