

Learn Citaville Institute - Brochure

Advanced Graphics Design & Video Editing (CorelDraw, Photoshop & Premiere Pro)

About the Course Program

This course equips learners with professional-level skills in graphic design and video editing using CorelDraw, Photoshop, and Adobe Premiere Pro. It focuses on advanced design principles, photo manipulation, and professional video production.

Delivery: Virtual (100% online, instructor-led, project-based) — learn at your own pace

Certification Requirement: Completion of projects and minimum attendance. Earn a minimum passing grade of 70% in each Course Topic assessment

Common Career Paths:

Recommended Study Time: Minimum of an hour personal daily study time during week days and 5 - 6 hours intensive training during weekend

Program Duration: 4–8 weeks

Who Can Attend?

This program is designed for:

- Aspiring graphic designers and video editors
- Content creators and marketing professionals
- Students pursuing creative media careers

Pre-requisites

- Basic knowledge of design tools (e.g., Canva or similar)

Detailed Course Overview and Topics

- **Module 1: Adobe Photoshop Fundamentals:** Learn photo editing, manipulation, and digital painting techniques.
- **Module 2: CorelDRAW for Vector Graphics:** Hands-on practice with vector design, logo creation, and print design.
- **Module 3: Adobe Premiere Pro for Video Editing:** Learn to edit videos, add transitions, effects, and color grade your footage.
- **Module 4: Adobe After Effects for Motion Graphics:** An introduction to creating motion graphics and visual effects.
- **Module 5: Practical Project - Branding and Video Ad:** Create a complete branding package for a fictional company, including a logo, social media graphics, and a video advertisement.

On Completion of this Course, You'll Walk Away With:

1

Participants will have the technical and creative skills to produce professional-level graphic designs and edited videos.

2

Portfolio of professional graphics and edited video content.
