Basic Graphics Design & Video Editing (Canva & CapCut)

About the Course Program

This practical course introduces beginners to the basics of graphic design and video editing using Canva and CapCut. It focuses on creating engaging social media graphics, marketing content, and short video edits with beginner-friendly tools.

Delivery: Virtual (100% online, instructor-led, project-based) — learn at your own pace

Certification Requirement: Completion of projects and minimum attendance. Earn a minimum passing grade of 70% in each Course Topic assessment

Common Career Paths:

Recommended Study Time: Minimum of an hour personal daily study time during week days and 5 - 6 hours intensive training during weekend

Program Duration: 4–8 weeks

Who Can Attend?

This program is designed for:

- Students and beginners with no prior design experience
- Entrepreneurs creating marketing content
- Content creators and influencers

Pre-requisites

- Basic computer or smartphone use

Detailed Course Overview and Topics

- **Module 1: Introduction to Graphic Design:** Learn the basics of graphic design, including combining text, images, and shapes to communicate ideas.
- **Module 2: Canva Fundamentals:** Get hands-on with the Canva workspace, learning to format text, use images, and create unique designs.
- **Module 3: Video Editing with Canva & Capcut:** Learn to create, edit, and enhance videos with Canva's intuitive tools. Practice adding subtitles, music, and animations to your videos.
- **Module 4: Practical Project - Social Media Content Creation:** Create a set of social media graphics and a video ad for a fictional brand.
- **Module 5: Presentation Design:** Learn to design presentations and apply animation to your designs.

On Completion of this Course, You'll Walk Away With:

1

Participants will be able to design attractive graphics and edit videos using Canva and CapCut for professional or personal use

2

Ability to produce graphics and short videos for social platforms.
