Project Management Professional (PMP®) Certification Training

About the Course Program

The PMP® Certification Training equips learners with globally recognized project management skills based on PMI standards. This program covers project initiation, planning, execution, monitoring, and closure while aligning with best practices from the PMBOK® Guide. Learners will master leadership, risk management, and agile approaches to successfully deliver projects.

Delivery: Virtual (100% Online) Instructor-Led Sessions, Case Studies, and Simulations

Certification Requirement: Completion of projects and minimum attendance. Earn a minimum passing grade of 70% in each Course Topic assessment

Common Career Paths: Project Manager, Program Manager, Portfolio Manager, Project Coordinator

Recommended Study Time: Minimum of an hour personal daily study time during week days and 5 - 6 hours intensive training during weekend

Program Duration: 4–8 weeks

Who Can Attend?

This program is designed for:

- Professionals aiming for PMP® certification
- Project managers seeking career advancement
- Team leaders, coordinators, and professionals managing cross-functional projects

Pre-requisites

- Bachelor's degree with 36 months of project management experience (or equivalent)
- OR diploma with 60 months of project management experience
