

Learn Citaville Institute - Brochure

Mobile App Development (Flutter or React Native)

About the Course Program

This course covers cross-platform mobile application development using Flutter or React Native. Learners will gain practical experience in building mobile apps for Android and iOS, understanding user interface design, APIs, and deployment.

Delivery: Virtual (100% online, instructor-led, project-based) — learn at your own pace

Certification Requirement: Completion of projects and minimum attendance. Earn a minimum passing grade of 70% in each Course Topic assessment

Common Career Paths:

Recommended Study Time: Minimum of an hour personal daily study time during week days and 5 - 6 hours intensive training during weekend

Program Duration: 4 weeks

Who Can Attend?

This program is designed for:

- Aspiring mobile developers
- Software engineers transitioning into mobile development
- Entrepreneurs interested in building apps for their businesses

Pre-requisites

- Basic understanding of programming concepts
- Knowledge of JavaScript (for React Native) or Dart (for Flutter) is useful

Detailed Course Overview & Topics

- **Module 1: Introduction to Flutter and Dart:** Learn the basics of the Dart programming language and the Flutter framework.
- **Module 2: Widgets & Layouts:** Get hands-on with Flutter's widget system and learn how to create responsive layouts.
- **Module 3: State Management & Navigation:** Learn best practices for managing app state and navigating between screens.
- **Module 4: Data & API Calls:** Practice making HTTP network requests to fetch data from APIs and handle asynchronous operations.
- **Module 5: Practical Project - Building a Simple To-Do App:** Create a complete, functional to-do list app to apply all learned concepts.
- **Module 6: Capstone Project:** Build a more complex app, such as a social media feed or a weather application, and integrate it with a backend service.

On Completion of this Course, You'll Walk Away With:

1

Participants will be able to design, build, and deploy mobile applications for multiple platforms using Flutter or React Native.

2

Certificate of completion from **Learn Citaville Institute**
